

MOSA WHERE IDEAS TAKE SHAPE

SINCE 1968 THE TECHNOLOGICAL PARTNER WHO MAKES THE DIFFERENCE

1968 ESTABLISHMENT
OF THE COMPANY

14.810 m² COVERED
PLANT
AREA

24.000 m² TOTAL
AREA

More than 50 years of experience and continuous development: MOSA meets the new challenges of today's market.

On a 24,000 m² total surface area and a plant with more than 14,000 m² operating area, equipped with presses of various tonnage, machines and specific equipment, Mosa and its team of specialists is **the reliable partner** for the production of metal parts from dedicated tools, ensuring quality and punctuality in every project.

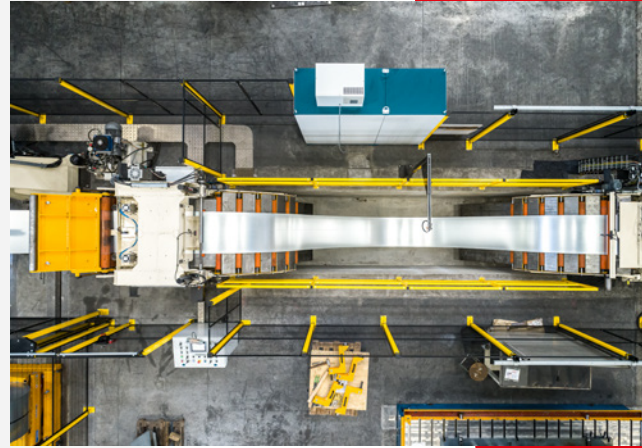

CERTIFIED QUALITY, EXPERTISE AND EXPERIENCE

CONSTANT INNOVATION FOR YOUR PRODUCTION PROCESS

From the cost estimating evaluation to the production of prototypes and samples, pre-series and series, Mosa **is able to carry out all the steps required** for the finishing of the component and time optimizing, in a completely improved process.

COMPLETE FULL-SERVICE

TOOL DESIGN AND
CONSTRUCTION

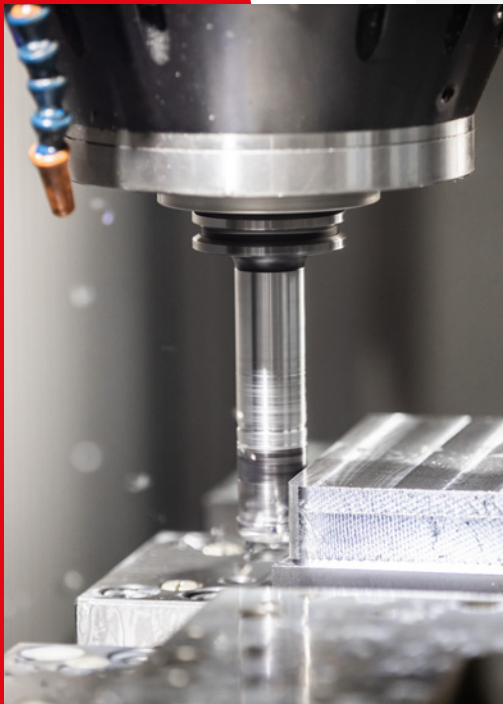

"BUILT-IN"
QUALITY STAMPING

ASSEMBLY AND
MACHINING

TOOL DESIGN AND CONSTRUCTION

The Mosa team makes its knowhow available to the customer by elaborating the customer's requests for implementing them in a **complete** design, construction, final test and maintenance **process**.

The tool shop is equipped with all the machinery that is required for the manufacture of the tools, from milling centers to wire EDM and grinding machines.

MILLING CENTERS

WIRE EDM

LATHE AND GRINDING CENTER

ASSEMBLY DEPARTMENT

Mosa owns a **fleet of presses** ranging from 63 to 800 t, completed with part finishing machines, such as washing, welding and tumbling equipment.

COIL-FED
MECHANICAL PRESSES

PRESSES FOR
TRANSFER TOOLS

BLANK FEEDING AND
HANDLING

QUALITY STAMPING

With the aim of meeting the requirements of its customers, Mosa uses equipment and technologies for the production of **metal parts** in steel, also pre-painted without protective film, stainless steel, copper, aluminum and brass.

ASSEMBLY AND MACHINING

To complete the production process, Mosa has a **fully equipped department for the assembly of components** such as gaskets, covers, pins, screws, fireproofing and thermal insulation materials, adhesive logos, masks and plastic bushings.
